JNC Magnetizing and De-magnetizing Apparatus (Library Security System)

Technical Parameter:

- 1) No more than 50 magnetic strips can be magnetized or demagnetized at a time
- 2) Induction height: 5cm
- 3) Voltage: (110-220) \pm 10%
- 4) Voltage output: 100W
- 5) Frequency: 50/60HZ
- 6) Effective area: 600cm²
- 7) Running time: 15 hours
- 8) Environmental temperature: -10°C – +40°C
- 9) Size: 230mm (height) x 170mm (width) x 115mm (thickness)
- 10) Weight: 5.6kg;
